Welcome Speech:

Ms Roxana Quader, Additional Secretary MOHFW (PH,WHO) welcomed all the guests and participants of the ceremony. She told about the theme of this year of WBW where Honorable Prime Minister had already emphasized on this issue every year 2009, 2010, 2011 and 2014 during celebration of WBW in Bangladesh. For the promotion, protection and support of Breastfeeding WBW is celebrated since 1992 in Bangladesh. According to the direction of Honorable Prime minister from 2010 Bangladesh government celebrated WBW. MOHFW, IPHN, BBF and other NGO all are jointly celebrating WBW.

There is no alternative of Breast milk for child. Breast milk meets the essential need of the baby and reduces illness from all causes. During 1993 to 2007 the breastfeeding rate was 43%, in 2011 it was 64% and in 2014 it is 55%. Working mother has right to breast feed and for this purpose Bangladesh Government has approved 6 months maternity leave with pay. In Bangladesh about 1,71,74,000 women are working in different sectors. In general we think that maternal protection means maternal leave. But maternal protection includes privileges,

maternal leave, financial support, health security, job security, indiscrimination, breastfeeding break and breast feeding corner. In working place we should provide privileges for breastfeeding corner and breast feeding break. We should be aware about breastfeeding and which one reduces IMR and disease burden. By providing promotion, protection and support of mother we can gain Sustainable Developmental Goal (2016-2030).
